Expert Presents to Louisiana Public Service Commission

Dr. Peter Pry presents to Louisiana Public Service Commission Details coming soon.

About

The Louisiana Grid Coalition is, first and foremost, a group of concerned citizens. Members include policy, energy, and national security experts, legislators, and industry insiders who are dedicated to strengthening the resiliency of Louisiana's electrical grid. The Coalition aims to raise awareness about the threats of grid vulnerabilities and encourage efforts to ensure the safe, secure, and continuous delivery of electricity for all Louisianians.
