WHAT ARE OUR GUIDELINES?

Our Governing Documents
The governing bodies of IEEE and the IEEE-Standards Association (IEEE-SA) are responsible for maintaining and overseeing a number of governing documents. These documents establish roles, responsibilities, authority and processes for IEEE. While the documents themselves are robust in nature, they collectively fall within a hierarchy of authority that is described as follows:

	Description	Governing Body
IEEE Constitution, Bylaws and Policies	Govern the operation of IEEE	IEEE Board of Directors
IEEE-SA Operations Manual	Govern the operation of the IEEE-SA	IEEE-SA Board of Governors
IEEE-SA Standards Board Bylaws	Govern the operation of the IEEE-SA Standards Board	IEEE-SA Board of Governors
IEEE-SA Standards Board Operations Manual	Govern the management of the standards development process	IEEE-SA Standards Board

**MAINTAINING THE
STANDARD**
